Program Details

What is the primary goal of the program?

A goal is the long-term aim you wish to accomplish which may or may not be achieved within the

grant period. The goal answers the question "What would we like to see happen to alleviate the need or problem we identified?" It is characterized by being broad in scope and is hard to quantify or measure. Example: "Increase the knowledge of elementary school children in Livingston County about musical instruments and orchestras."

100 words or less

Identify three of the most important objectives of the program.

Objectives (some grant applications call these outcomes) are targets that will move you toward the stated goal. They are characterized by the acronym SMART (specific, measurable, achievable, relevant, time-bound). Here are some examples: "Sixty-five of 70 children will be able to identify various musical instruments by the end of the six-month music education program"; "At the end of the six-month program, we will create a manual to be used in teaching children of this age group about musical instruments and orchestras"; "After three weeks, 50 of 70 children will report that the program is fun and they want to learn more about musical instruments".

500 words or less

List both planning and direct service activities that will be used to reach these objectives.

750 words or less

What methods and measurements will you use to determine if the three objectives have been achieved?

Describe specific measures you will use. For example, pre- and post-questionnaire, achievement test, program evaluations, reports from teachers, interviews with parents, etc.
